### MEGA EFFICIENCY. SUPERCHARGED PRODUCTIVITY.

The MAXIFY GX6560 MegaTank printer can keep up with your high-volume demands, equipped with 35 sheet Auto Document Feeder and high-capacity front and rear paper feeding totalling 350 sheets of plain paper needed for those very productive environments.

Approx. yields are based on Canon original method using test patterns ISO/IEC 24712 (Colour chart). The estimated page yields are determined not based on the initial set of bundled ink bottles, but based on subsequent sets of ink bottles after print head nozzles have been filled with ink from the initial set of ink bottles. Black and colour page yields are not to be combined. Page yields varies significantly depending on contents printed and other factors.

Getting started guide

\*1: Ink droplets can be placed with a pitch of 1/4800 inch at minimum.

- \*2: Document print speeds are the averages of ESAT (Word, Excel, PDF) in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
- \*3: Copy: When copying ISO/JIS-SCID N2 (printed by inkjet printer) on A4 size plain paper using default settings. Specifications are subject to change without notice.
- \*4: The performance of the printer may be reduced under certain temperature and humidity conditions.
- \*5: For the temperature and humidity conditions of papers such as photo paper, refer to the paper's packaging or the supplied instructions.
- \*6: Acoustic Noise is measured based on ISO7779 standard with default setting.
- \*7: TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager comes with the operating system.
- \*8: Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
- \*9: Resolution may be changed between Direct print and printing from PC.
